THOUSANDS OF GERMAN PLANES SENT AGAINST BRITAIN IN GIANTIC RAIDS

Losses Inflicted Upon Raiding Warplanes Is Described As Colossal

LONDON, Aug. 16—The air ministry announced tonight that large forces of enemy bombers twice flew over the Thames estuary today, bombing both sides of the river, damaging property and causing fatal casualties. The Germans lost more than 50 planes. The bombers struck at the southwestern suburbs of London and also attacked the important dockside of Tilbury, east of town and a Royal Air Force airbase in the Isle of Wight, the ministry said. Twelve British fighters were lost although pilots of eight are safe.

Today's War Moves

By J. W. T. MASON
British United Press Wire Service
Exclusive to Edmonton Bulletin
EVIDENCE of representa-
tive damage being done by
the present series of German
bombing over Britain is be-
coming known, as well as the
possible maximum of effort
which the Germans can put
forth in the air. Neither indi-
cates that Hitler can win the
war with his aviators alone.
If the raids are not followed
by an invasion and do not
revert to concentrated at-
tacks on British supply ships,
it is difficult to understand
how the German high com-
mand can have formulated
any realistic plan for a de-
cisive outcome under present
conditions.

Only by annihilating the British Air Force could a possible result favorable to Germany be obtained. There has been no let-up, however, in the combat power of the British defenders, and indeed, Berlin declared last night that the enemy aviators were showing increased competence.

The British have allowed foreign correspondents again to inspect ports which the Germans claim they have heavily damaged. The

Mexican Peasants Raid Village; 14 Persons Killed

MEXICO CITY, Aug. 16—Four-
teen persons were reported killed
and at least 40 wounded in the
village of Felipe Santiago, Mexico
State, when a band of 200 armed
peasants staged a raid yesterday.
Houses were burned and cattle
stolen by the raiders, who left the
village a shambles after several
hours of fighting. Troops pursued
them to the hills.

Women and children were among
the village casualties. Neighboring
villages demanded protection
by the army.

One Person Killed

CAIRO, Aug. 16—A naval state-
ment said today one person was
killed and one injured last night
in an air raid on the Alexandria
area. The communiqué said some
bombs were dropped by a few raiding
planes, but that the damage was
negligible.

Bombs Dropped Near Factory

In one suburban area bombs were dropped near a factory and partially wrecked a garage. London took cover twice as the raiders came near. One warning came at lunch time and the other when Londoners were having tea. The City was untouched.

A TOWN IN SOUTHEASTERN ENGLAND, Aug. 16—Three waves of German heavy bombers, each of about 70 planes, roared across the English Channel and the coast late this evening, heading for the centre of England.

These raised to approximately 700 the total planes known to have crossed the coast within a radius of 15 miles of this town.

Five German planes were shot down in this area. Scores of bombs were dropped by dive bombers on this town. R.A.F. fighters engaged the raiders in dogfights but clouds obscured the combat. Eleven heavy bombs fell in the country, near the town.

British Tackle Waves Of Raiders

By WALLACE CARROLL
British United Press, Exclusive Cable to The Edmonton Bulletin.

LONDON, Aug. 16—Germany sent thousands of planes against Britain today in the most daring attacks of the war but sensational claims in Berlin aroused derision in London. British residents going home from work heard fierce dog-fights overhead. British fighters everywhere were tackling great waves of German raiders and chasing them back to the coast. It was estimated that more than 2,000 planes were being employed in today's operations.

However, this estimate was made up to mid-afternoon and there was no official indication how many planes were involved in later attacks.

Bombs were dropped in a populous district during the raids on southeastern England tonight. Bombs were also dropped over London.

A terrific toll was taken on the constant waves of German bombers and fighters which roared over Britain.

The losses inflicted on the Germans were described as colossal, and it was stated that the total number of Germans brought down would exceed yesterday's figure of 170.

Likely Duplication Thursday's Assault

LONDON, Aug. 16—German raiders appeared over the length and breadth of Britain today, dropping hundreds of bombs but offering targets to the Royal Air Force and ground defences which quickly added to the bag of 169 Nazi craft destroyed yesterday.

The ferocity of today's raids, beginning before dawn, presaged a likely duplication of yesterday's 1,000-plane assault which brought the war to London's suburbs.

The Nazi raiders launched the sixth successive day of the great mass air siege of all time by dropping bombs on the Midlands, industrial heart of England; the northwest, northeast, southeast, southwest and Wales.

Some Casualties Announced

Some casualties, including deaths, were announced. German bombs struck hospitals and a sanatorium during the

Associated Press Staff Writer

A TOWN IN SOUTHEASTERN ENGLAND, Aug. 16—A mighty armada of German planes is skyrocketing across the English coast today and military observers in this area estimated they were twice as numerous as yesterday's 1,000-plane assault. Some put today's figure as high as 2,500.

I counted 400 planes over this English port alone in the vast armada and still they came.

The military observers shared their calculations on unofficial reports that planes in equal numbers had roared across the coast at four or five other points.

Enemy Planes Above

Members of the Women's Auxiliary Training Service are shown taking cover in a trench during an air-raid alarm somewhere in England. The London raid last night was an A.T.S. camp because of an actual raid on a town or city, the women warriors would be doing raid duty, driving ambulances, calming civilians and supervising refugees, etc.

BRITISH SLOW UP ITALIANS IN SOMALILAND

Enemy Meets Stiff Resistance In Advance On Berbera

CAIRO, Aug. 16—British aerial bombardment and machine-gun fire on Italian troop concentrations and communications lines in Somaliland have slowed up the Italian advance on Berbera, capital of the protectorate, British authorities announced today.

The Italians were said to be meeting stiffer resistance from British forces, aided by native troops, and from constant bombing of columns attempting to advance from two directions.

One Italian column was using the coast road from Zeila to Berbera, and was aiming first at Berbera, 40 miles west of Berbera. The other was driving from the south through Jigjiga.

BOMB TROOPS
Today a British communiqué said Italian motor transports and troops were "successfully" bombed and machine-gunned.

Destruction of a number of sea-planes and flying boats in a raid on Berbera, Italian Italy, was reported in a Royal Air Force communiqué.

The statement follows: "A highly successful raid was made on Berbera, Italian Italy, by a force of 100 bombers."

SCHOOL BOYS JOIN KING IN DRINKING TOAST

LONDON, Aug. 16—The King drank to "speedy victory" with a glass of beer in a field near Blenheim Palace today.

The Sovereign, who devoted much of his time to visiting war workers around embattled Britain, was watching suburban school boys helping farmers gather in the harvest.

Scores of lads stopped work to join the King in the toast but they stuck to soft drinks.

Evacuees From England Land On Canadian Soil

AN EAST COAST CANADIAN PORT, Aug. 16—A British ship with 124 children evacuated from England under government sponsorship entered this harbor today.

Also aboard were about 80 passengers, including a group of German children who had been evacuated from Germany under a "chance to take a quick rest."

They were charwomen, but they enthusiastically sang and danced to the British attitude toward the dangers from the skies.

Greek Ships Bombed By Italo Planes

ATHENS, Greece, Aug. 16—Partial mobilization of Greek Reservists has been set for Aug. 20, it was announced tonight.

NEW YORK, Aug. 16—An Exchange Telegraph (British news agency) dispatch broadcast today from London announced here by National Broadcasting Company said Italian troops were concentrating near the Greek border of Albania.

ATHENS, Aug. 16—A high authority said here tonight the commanders of two Greek destroyers bombed by warplanes today had reported by radio to the navy ministry that the attacking planes were Italian.

The government carefully refrained from any comment, saying that the planes were of "unknown" nationality. Nevertheless, the high authority said the officers of the two destroyers, the Vasilefs and Vasilefs Olga, drafts of 1,100 tonnage, had carefully watched the planes through field glasses and reported "An absolute identification."

CONTINUE SILENCE
The government was expected to continue to preserve silence until any statement, implied Greek neutrality at a time when the situation between Greece and Italy is growing hourly more critical.

The destroyers were scheduled to arrive at Piræus, the port of Athens, tonight.

The air attacks came amid mounting tension in the relations between the two countries.

R. A. F. AGAIN RAIDS ENEMY SUPPLY BASES

LONDON, Aug. 16—Royal Air Force bombers renewed their attacks on military objectives in Italy, Germany, France and Holland last night, the air ministry announced tonight.

They aimed a blow on airplane factories, oil plants, munitions factories and wharves, with the loss of three German planes.

The statement said: "Royal Air Force bombers renewed their attack on Italy last night. The Fiat Aero engine factory at Turin and the Caproni aircraft works at Milan were bombed."

A blast furnace near Genoa was also hit.

"Another striking force of bombers aimed at the plants at Gelsenkirchen and Reichshütte, munitions factories at Lams, Essen, Gelsenkirchen and Düsseldorf, and wharves at Bremerhaven on the Dutch German frontier."

BERNE, Aug. 16—The Swiss government today ordered its minister to London to protest against violation of the Swiss frontier Tuesday night and Wednesday morning, when more than 30 foreign warplanes crossed Switzerland twice.

By SIDNEY J. WILLIAMS
The Boston Globe Staff Writer
Exclusive to The Edmonton Bulletin

LONDON, Aug. 16—The "all clear" signal sounded and a moment later two charwomen emerged from a pub wiping their lips.

"Well," said one, "the meetings over, ain't it?"

With that they went on about their business slightly pleased that the nearness of Adolf Hitler's air raiders had given them a chance to take a "quick rest."

They were charwomen, but they enthusiastically sang and danced to the British attitude toward the dangers from the skies.

Important Mission

REAR ADMIRAL ROBERT I. GORMLEY, assistant chief, naval operations, U.S. Navy, has been appointed to the post of President Roosevelt, to act as special naval observer.

U.S. CONFERS WITH BRITAIN FOR AIR BASES

Conversations Also Being Carried On With Canada On Defence

By LYLE C. WILSON
British United Press, Exclusive Cable to The Edmonton Bulletin.

WASHINGTON, Aug. 16—President Roosevelt revealed today that the United States is conferring with the British Empire for acquisition of naval and air bases to bolster western hemisphere defenses.

"The United States government is holding conversations with the government of the British Empire with regard to acquisition of naval and air bases for the defense of the western hemisphere and especially the Panama Canal," Mr. Roosevelt said.

"The United States government is carrying on conversations with the Canadian government on defense of the western hemisphere."

The negotiations with Canada are separate from those being conducted with London, the President explained.

He also disclosed that the U.S. army and navy have high officers in Great Britain at the invitation of the British government to act as observers of facilities there.

The army observers are Maj. Gen. Delos Emmons, commander of the general headquarters air force, and

Air Fights May Prove Turning Point Of War

Neutral Observers Inclined To Doubt German Air Force Will Be Able To Blast R.A.F. From The Air

By FREDERICK KUH
British United Press, Exclusive Cable to The Edmonton Bulletin.

LONDON, Aug. 16—Neutral observers predicted today that this week's air battle over Britain may prove the turning point of the war.

These neutral quarters were inclined to doubt that the German air force will be able to blast the Royal Air Force from the air, which is believed here to be a necessary preliminary to any attempt by Germany to invade the British Isles.

It was said by these experts that the figures of the British air ministry on the huge German plane losses in fighting thus far probably present an accurate reflection of the cost of the battle to the Germans.

They said that the German air force continued to enjoy a three-to-one numerical advantage over the R.A.F. and predicted that despite its losses the Luftwaffe still could place up to 5,000 planes in the air for a single day's fighting.

However, one possible weakness of the German air force was noted. It was pointed out that the force was built up on the basis of mass production of men and machines. It was built to cooperate closely with the large German army in smashing enemy land forces.

OFFENSIVE DIFFERS
The lack of the type of offensive which Germany accumulated in the months of the war, differed sharply from the problem in the air. The German task is to win air supremacy from the smaller, but better-trained and better equipped R.A.F. Whether the Germans can win this supremacy was doubted here.

It was said, however, that the morale of the German air force must continue at a high level. Otherwise it would not continue to make daylight raids in which losses ran as high as 10 per cent of the planes participating.

HARD ON MORALE
The question here was how long the German morale could stand up when suffering German aviators each night see more and more of their comrades crash simply in the mass kill.

No air force in the world, it was thought here, can continue to take indefinitely the losses now being inflicted on the German air force. The British, it was believed, would have to call off the air battle after a week or 10 days if the air force is not saved.

BRITISH LOSSES LESS
British losses, it was said, were bound to be less because they are using single-seater fighters as compared to the two-seater Messerschmitt fighters and German bombers with crews of four to six men.

Moreover, it was noted, 20 per cent of the British aircraft are shot down as land in their own territory and thus are able to fight again. The loss in trained manpower, it was thought, is much more serious for Germany than the loss of planes, which can be turned out faster than pigs.

ARMY PROBLEM FOR SCHOOLS NOW STUDIED
Department of education officials Friday discussed plans for avoiding disruption of schools in operations and at the same time facilitating requirements of the military when pulling training camps open in September.

The meeting was attended by Dr. G. Ford McNally, deputy minister of education, Dr. H. C. Newland, supervisor of schools, E. L. Fisher, chief inspector of schools, and M. M. O'Brien, secretary of the department of education.

Inquiries relative to leave of absence to attend camps have been received from teachers in many parts of the province.

As a number of school students have joined the militia school, officials were of the opinion they should be urged to take their training during the first two weeks in September, thus avoiding any further interruption in school work.

Thousands Of Nazi Planes Are Sent Against Britain

Continued from Page One

night. A German bomber was shot down by British fighters in the northeastern Humber area.

Revising upward the number of German planes shot down yesterday, the air and home security ministries announced that of yesterday's bag 153 were brought down by British fighters, 13 by anti-aircraft, one by Lewis gun and two by infantry fire. Thirty-four British planes were lost but 17 pilots were saved.

The previous British figures, based on reports up to last midnight, on yesterday's air war were 144 German craft destroyed to 27 British fighter craft.

Returning to the attack today, German fighters swept the coast in waves upon waves flying at 30,000 feet. The formations spread in all directions, with the greatest swarms flying over various parts of the southeast.

A number of persons were killed yesterday in the Midlands, where hundreds of fires were quickly extinguished. Many casualties were counted in the southeast town and in an area of the southeast.

British fighters challenged the invaders from all sides and anti-aircraft guns kept up a continuous fire that blended with the thunder of exploding German heavy explosive bombs and falling bombs.

BAD BROKEN UP

Sixteen German bombers attacked shipping in the southeast area in a raid quickly broken up by fierce anti-aircraft fire and swimming British Spitfires.

The air and home security communiqué said that last night's attacks, although not in a large scale, were spread over a wide area. Heavy explosions were heard in the southwest—some residents said they might be from naval gunfire in the English channel.

SEVERAL FIRES

Several fires were started in the Midlands but were quickly extinguished. The fires and searchlight beams in the skies and the roar of anti-aircraft fire mingled with the sound of exploding bombs.

Several persons were reported killed also in one area of south-east England, where British fighters and ground defences waged a fierce battle with the invaders.

The R.A.F. reported that the raiders off and continued to patrol the district, retaining their command of the air and continuing to bomb the coast. The R.A.F. said that the raiders off and continued to patrol the district, retaining their command of the air and continuing to bomb the coast.

A German plane was reported to have fallen into the sea off the east coast town after being spotted by anti-aircraft fire.

The nation, declared to be prepared for a German attempt at invasion, and anticipating even greater air raids than those of the past five days, took steps this morning after yesterday's attack, which was the greatest air onslaught in history and brought in Greater London, the first raid of the war.

The official government summary as published in a communiqué this morning was that "little success was achieved" by the Germans "at a high cost."

The government said reports received up to midnight showed 144 German planes had destroyed 100 British planes and 27 British fighters. The sky and 27 British fighters were shot down, although eight of their pilots were saved. The war almost twice as many German raiders as the British had destroyed in the previous day. The previous high was 78 on Tuesday.

Germany, revealing the figures to reveal that only 25 German planes were lost to yesterday's raid while 100 British craft were destroyed.

It was reported unofficially approximately 100 casualties were caused at London's southern suburbs.

ONE A MINUTE

Throughout the country R.A.F. planes were in the air for long periods during the day—many landing just to refuel and refuel. The R.A.F. said that the raiders off and continued to patrol the district, retaining their command of the air and continuing to bomb the coast.

The air ministry announced last night that on Wednesday night and early Thursday morning British fighters shot down 144 German planes and 27 British fighters.

WAVES NAZI PLANES BACK OVER BRITAIN

Continued from Page One

I counted the planes, flying at 30,000 feet and coming in in distinct waves at roughly five-minute intervals.

One singled out the port, downing two barrage balloons and spraying small demolition bombs. The fire was louder than I was standing and machine-gunning the cliff itself.

BALLOON CRASHES

One balloon known as "King Lear" crashed with its cable down on three small cottages at the base of the cliffs, setting fire to their roofs.

Several small children were playing inside, but the fires were put out quickly and they were unharmed.

As the plane which bagged the balloons went out to sea, it screamed and fell 200 feet before it was spraying machine-gun bullets all over the cliffs where it was standing.

At a height of at least 20,000 feet, they were coming in waves after waves.

An Associated Press correspondent stood on the cliffs of the town listening to the broken rhythm of the motors for nearly half an hour.

EXPLOSIONS HEARD

Shortly afterward explosions were heard in the distance. The 18 Nazi bombers were seen speeding away in the direction of France.

One of the bombers was seen to have broken through the protecting force around the bombers and was followed it down, circling about the widening of patch it left, and then it disappeared.

In a dog fight two machines were seen to dive out of a haze, one on top of the other. The second machine appeared before observers could see the results of the encounter.

U.S. CONFERS WITH BRITAIN FOR AIR BASES

Continued from Page One

Brig. Gen. B. Steno, assistant chief of staff.

The naval officers are Rear Admiral Robert L. Ghormley, assistant chief of staff, and Rear Admiral Robert L. Ghormley, assistant chief of staff.

Mr. Roosevelt insisted that the registration of acquisition of British naval bases has no relation to increasing demands of proposals for the U.S. to sell 50 or more ships to the British.

He said that the conversations are in progress on a quiet pro quo basis, and are proceeding.

ALL NEWS AVAILABLE

Beyond that the president would say no. He refused to say whether the possibility that British bases in the hemisphere might be acquired in a 30-year period.

Mr. Roosevelt cautioned reporters to make no assumptions and to refer closely to the facts. But even prior to his press conference speculation had developed on the possibility that the U.S. might acquire, in addition to the stations in the Bahamas, Jamaica, Trinidad and other islands.

By HOMER JENKS

British Under-Secretary of State for the Colonies.

LONDON, Aug. 16.—Authoritative sources indicated today that a confidential source in the British government had suggested that Great Britain might exchange with the United States a number of islands in the western hemisphere.

It was said authoritatively that if the United States suggested the acquisition of such bases the suggestion would be received sympathetically and would be given serious consideration.

"It is untrue to suggest that the question of selling any islands has arisen in these conversations," however. "It is also incorrect to link the discussion of island bases with the transfer of United States destroyers to Britain."

It was further stated that the proposed exchange of islands would be a long-term arrangement, and that the United States would be expected to provide the United States with a number of islands in the western hemisphere.

It was said authoritatively that if the United States suggested the acquisition of such bases the suggestion would be received sympathetically and would be given serious consideration.

By HOMER JENKS

British Under-Secretary of State for the Colonies.

LONDON, Aug. 16.—Prime Minister Mackenzie King confirmed today a statement made in Washington by President Roosevelt that conversations are being carried on between the United States and Canada regarding the acquisition of islands in the western hemisphere.

He said that the conversations are in progress on a quiet pro quo basis, and are proceeding.

Mr. King, informed of the President's statement, merely confirmed the statement.

The prime minister said that because of the nature of the conversations, it was not possible to say whether the acquisition of islands in the western hemisphere was being considered.

He said that the conversations are in progress on a quiet pro quo basis, and are proceeding.

He said that the conversations are in progress on a quiet pro quo basis, and are proceeding.

Today's War Moves

Continued from Page One

naval base at Portland has been bombed repeatedly, and an attack by correspondents shows the damage to have been slight with no serious damage to the base.

DOVER SHOPS OPEN

At Southampton, another persistent target for the Germans, shipping is passing in and out of the port without molestation. At Dover where the Germans claimed a victory of the air the ships are open for business as usual, and foreign correspondents remain there to describe dogfights in the air and over the base of the cliffs, setting fire to their roofs.

Such results as these do not indicate Britain is being bombed into surrender.

The Germans claim, however, that they are far from having reached the maximum of their bombing capacity, and they refuse to admit that the air blitzing has yet been broken.

It is doubtful, but the German maximum can be put into perspective by the fact that it is probably not far wrong.

The British say at yesterday's raids there were 2,000 "individual" machines in the air, and they estimate that the Germans can make little more than 8,000 sorties a day. Yesterday's intensified raids had been the heaviest in the history of the war.

Daylight during August in Great Britain, owing to the high northern latitude, lasts about 18 hours.

5,000 SORTIES

Thus, if the Germans were to attack during the daylight hours, the number of planes used yesterday, they estimated, would be 5,000.

It is estimated that the Germans can make little more than 8,000 sorties a day. Yesterday's intensified raids had been the heaviest in the history of the war.

Daylight during August in Great Britain, owing to the high northern latitude, lasts about 18 hours.

REMAIN IN PORT

All Greek ships were under orders to remain in port, and the Greek public this day of the invasion is near.

The Greek press unburdened itself—in limited fashion—by calling the torpedoing of the ship "a disgraceful and cowardly blow at Greece," but no speculation was permitted about the identity of the submarine.

The death toll of the incident rose to 100.

Meanwhile Italian propaganda organs continued their attacks on the Greek ships, stating that the Greek public this day of the invasion is near.

Dual Citizenship Of Japs Protested By Coast Alderman

Continued from Page One

VANCOUVER, Aug. 16.—Alderman D. H. Wilson demanded in a telegram sent to Minister of War Ben V. H. Johnston yesterday that the right of Canadian-born or naturalized Japanese to claim allegiance to Canada be denied unless they have previously renounced their "dual citizenship" privilege in Japan.

"They are either with us or against us," said Alderman Wilson. "As it is, they can swear on their national registration forms that they are loyal to Canada, but they can still keep a foot in Japanese emperor's camp if their birth has been registered in Japan or with the local Japanese consul."

One Crofton woman was never seen again. She was last seen yesterday. After the Germans had flown away, it became necessary for her to search for her missing husband.

"I went back to the garden to get some baby's napkins from the closet and I found my husband lying on the ground with machine gun bullets in his chest."

"CRISIS OF DIRT"

The local relief plane fund at "Crisis of Dirt" from the raid 15 pounds richer (\$60). Persons seeking a public shelter near the fund's headquarters showed silver and notes into the collection box.

A Mrs. Jones went to the fund from her shop and saw what she thought were bits of dirt falling from the sky.

"The bits of dirt" she recounted his neighbors house across the street and the sound of exploding bombs and machine gun fire had faded away.

Similar stories came from other parts of England. In a west coast town a pilot officer was getting through when a German plane was shot down. He and his bride returned to their home and found their house a ruin.

While the British and Germans were still fighting overhead, ambulance crews, firemen and hospital staffs went calmly about their business. Appeals for blood donors were answered almost before the sound of exploding bombs and machine gun fire had faded away.

GOVERNMENT CONSIDERING GRAIN ISSUE

Continued from Page One

aware of the difficulties of the present marketing situation and are deeply concerned. We realize that to relieve the situation, advances on grain stored on farms will have to be arranged from some source. This matter is receiving fullest possible consideration at present time.

Situation may require co-operative provincial legislation." Mr. Mackinnon's message, Mr. Manning stated: "It is the urgency of the situation that makes it so serious. The situation calls for immediate action. Every hour's delay makes the problem more acute from the standpoint of the farmer and the western business man." He said it was regrettable that the calling of a special session of the legislature would result in inevitable delay which would be disastrous at this time."

DISASTROUS DELAY

During a suggestion of co-operative provincial legislation, which Mr. Manning interpreted as meaning possibly a special session of the legislature, the acting premier said that the calling of a special session of the legislature would result in inevitable delay which would be disastrous at this time."

Wallace Resigns From U.S. Cabinet

WASHINGTON, Aug. 16.—Agriculture Secretary Henry A. Wallace, democratic vice-presidential nominee, handed President Roosevelt his letter of resignation from the cabinet yesterday during the course of a luncheon conference.

Wallace's resignation was accepted by the president. Wallace had been in the cabinet since 1933, and had been in the cabinet since 1933.

British Bulldog Still Growling Defiance as Nazi Raids Continue

By KIRKE L. SIMPSON
Associated Press Staff Writer

WASHINGTON, Aug. 16.—The unchallengeable fact about the Battle of Britain, after two months of Nazi air attack culminating in a week of mass bombing of unparalleled ferocity, is that the British bulldog still is growling back defiantly.

MOVIE COMPANY IS LEAVING FOR EASTERN ARCTIC

CHURCHILL, Man., Aug. 16.—A band of British and Canadian actors will leave this morning for the eastern Arctic where they are to take part in the film of a new British movie, "49th Parallel."

The picture, starring Elizabeth Bergner, Leslie Howard and Raymond Massey, will be the first full-length expedition by any motion picture company into the Canadian Arctic.

All members of the company except Miss Bergner will voyage to the scene of filming by boat and because the motor vessel on which they are traveling is not chartered for passenger service, each one has been signed up as a member of the crew at one shilling a month.

Miss Bergner will make the trip by airplane.

Do You Suffer From Headaches?

It is universally admitted that the vast majority of headaches are caused from eyestrain, and that the first thing to do in the case of headache is to have your eyes examined. A pair of glasses may make all the difference in the world. Don't trust your eyes to anyone but an expert. If you suffer from headaches, call and have our optometrist examine your eyes, and if necessary fit you with glasses to relieve that strain.

The Bahamas Lie Ahead

The Duke and Duchess of Windsor are pictured at Government House, Hamilton, Bermuda, where they are staying while they leave for Nassau. At Nassau the duke will assume his duties as governor-general and commander-in-chief of the Bahamas.

Canucks Join With Other Empire Fliers in Turning Back Greatest Air Raid

By DOUGLAS AMARON

LONDON, Aug. 16.—Canadians joined with other empire fliers in turning back yesterday the greatest air attack this island has ever known.

They saw action in at least two of the nine main raids along the coast and deep inland. Three of the 144 enemy planes destroyed are known to have fallen before their fire.

EAST PILOT GETS TWO

At Croydon airport Squadron Leader Ernest McNab, of Regina, member of the Royal Canadian Air Force, downed a big Dornier bomber while a Toronto-born pilot in the Royal Air Force—whose identity was undisclosed—accounted for two of eight bombers his auxiliary Spitfire squadron shot down off the Yorkshire coast.

The eight bombers, Junkers 88, were sent crashing into the sea and on land, the air ministry said. The Spitfire squadron suffered no casualties.

The Spitfires were patrolling at 20,000 feet when they intercepted an enemy force. As the fighters attacked out of the sun the Junkers pilots attempted to throw off their pursuers by diving into clouds.

In addition to the bombers downed by this squadron another fighter Spitfire bagged five Junkers in the same action.

The air ministry gave no details of the Toronto pilot's part in this fight other than to say that he "destroyed two of the eight enemy bombers."

Australians and New Zealanders also saw action in various engagements.

One New Zealand pilot with eight Nazi planes already to his credit got his ninth over the channel when he sent a Junkers spinning down in flames. He was forced to bail out for the first time in his life when his Hurricane was damaged by machine-gun fire but he returned to his airplane uninjured.

An Australian, aged 23, in action for the second time, was forced down by a burst hydraulic pipe line. He returned to the air within three minutes and downed two Heinkels and damaged another.

Another Australian got a Junkers and a Messerschmitt.

ITALIAN LISTS CONFIRM TRUTH OF R.A.F. REPORT

LONDON, Aug. 16.—The ministry of information declared Thursday that Italian casualty lists furnish "striking confirmation" of the "conservative character" of British claims of enemy air losses.

"Thus in July, 1940, the total of Italian aircraft claimed destroyed by the R.A.F. was 76 confirmed. Of these a number were destroyed on the ground, that is to say without pilots," a ministry statement said.

"Italian casualty lists for July admit the loss of 36 pilots killed and missing, a number exceeding the total claimed by the R.A.F."

The Great Pyramid of Egypt and British Dam, was destroyed in France in 1915 and 1916, died yesterday.

Canadian Writer Says Grand-Scale Air Warfare Has Not Yet Started

Sam Robertson, Canadian Press staff writer who accompanied troops of the 1st Canadian Division to England, has just completed a three-day visit through England's southern coastal area, objective of daily Nazi air thrusts. In this story he tells what he saw.

TOTAL 11,026 JOIN MILITIA IN PROVINCE

Others Not Yet Attested Will Bring Figure Near 11,500

CALGARY, Aug. 16.—Voluntary enlistment in the Non-Permanent Active Militia ended midnight Thursday with Alberta's total standing at 11,026 men. Increase over Wednesday's total was 345.

There are a large number of men who presented themselves for service by Thursday night, but have not been medically examined and attested, and units have platforms and companies at country points which have yet to report their final figures. The final total will be near 11,500.

Men throughout Alberta who have not joined a non-permanent active militia unit will be sent to compulsory camps at Red Deer, Camrose and Grande Prairie for a 30-day period.

N.P.A.M. units train two or three nights a week and will take a two-week camp at St. James, beginning September 1. Accommodation and equipment at St. James is sufficient to handle only part of the men in the units, and some of the men will not get camp training.

It is expected that throughout the year these men will get sufficient training in the evenings and other off-work hours to bring their time spent in training over a period of a year up to 10 days.

The following is the present strength of Edmonton units:

2nd Battalion Edmonton Regiment, 779. Increase, 25.
Edmonton Fusiliers, 580. Increase, 19.

19th Alberta Dragoons, 665. Increase, 114.
96th Battery, R.C.A., 147. No increase.

13th District Signals, R.C.A., W.T. section, 95. No increase.

Canadian Officers' Training Corps, University of Alberta, 433. No increase.

Total, 3,146. Increase, 144.

France Internes All Englishmen

PARIS, Aug. 16.—French newspapers carried today a notice that all Englishmen between the ages of 15 and 65 have been interned in special camps. Women and sick men have not been interned.

Welsh General, Sir Ivor Phillips, Dies

LONDON, Aug. 16.—Major-General Sir Ivor Phillips, 78, who commanded the Welsh Division in France from 1915 to 1918, died yesterday.

The great cylindrical tanks holding petrol and natural gas visible from the train had not been touched, and the same was true of the great public utility stations pumping the lifeblood of power through the United Kingdom's commercial arteries.

There are several explanations why the enemy has not followed up the current series of mass attacks with the sort of saturation assaults that paralyzed France, Belgium and the Netherlands.

One is that the Axis bosses have learned to have a holy respect for the Royal Air Force. Another is that they are attempting to settle up the island's defenses for heavier onslaughts to come, at the same time using a scheme of "area" raids aimed at keeping the British public in a state of nervousness and thus making it easier to find weak spots in the defense camp.

It can be said that the enemy has found any weak links in the armor of Britain.

UNEMPLOYMENT IS DISCUSSED BY TEACHERS

HAMILTON, Aug. 16.—There are about 400 unemployed teachers in Ontario, it was estimated in the statistical report of the Canadian Teachers' Federation at the 19th meeting of the federation here today.

Unemployed teachers in Saskatchewan were estimated at 200 while in Nova Scotia the estimate was 100. The provincial association of Protestant teachers of Quebec reported there were no unemployed teachers unemployed in that province.

The report showed that an all-time high of 36,678 in total membership of federations associated with the C.T.F. in all provinces was reached in 1939-40.

Membership was reported for the western provinces by the Canadian Teachers' Federation, 6,849; Alberta Teachers' Association, 6,849; and British Columbia Teachers' Federation, 3,268.

Neutrality was the last known of the micrograph animal that caused the ink to glow at night.

KODAK 35 (f/5.6)

THE ECONOMY MOVIE MAKER
Leads home movie within the reach of almost everyone. Gives 20 to 30 black and white movie scenes—each as long as the average newsreel scene—on a roll of film costing \$2.50. Pushed, ready to show. Also makes full-color Kodachrome movies.

CINE-KODAK EIGHT, Model 30

Cheque to Aid War Work of I.O.D.E.

Municipal chapter I.O.D.E. has received a cheque for \$307.32, as half the proceeds from a special Midland show arranged in connection with the exhibition week by the Edmonton Exhibition board, the Royal American show and the Barnes and Co. exhibitors company operating the mid-way. The special show was in aid of special war services.

Announcement that the cheque has been received was made at a meeting of the municipal chapter held recently at the Midland hotel. Mrs. H. Black presided.

Mrs. Milroy, convenor of child and family welfare reported that \$610.00 was realized at the annual tag day held recently in aid of the girls' camp.

SUPPLIES HANDED IN
Mrs. L. Tully reported a large supply of socks, sweaters, mitts, helmets and caps handed in during the month. The sock depot in the Hudson's Bay Company store is also receiving continued support, it was announced.

Members assisted in selling war certificates and stamps during the campaign and have also volunteered to assist in the national registration.

The order has been made application for membership in the "Coordinating Council" just formed in the city.

Gladys Munro Is Bride Of John Cheston

ST. FAITH'S CHURCH was the scene of a pretty wedding at the hour of eight o'clock on Thursday evening when Gladys Eileen Mae Munro, only daughter of Mr. and Mrs. John O. Munro, pledged vows of marriage with John Stanley Cheston, R.C.A.F. eldest son of Mr. and Mrs. E. Cheston, also of this city.

Gladiolus and sweet peas made a lovely floral setting for the marriage which was performed by Rev. Mr. Naumbly. Miss Emile Cole played the wedding music.

For her wedding the bride, who was given in marriage by her father, wore a lovely frock in softest white net over tulle, her slip trimmed with several rows of colored tulle. Made with a Victorian styled skirt, her frock had a fitted bodice with sweetheart neckline and lace-trimmed sleeves, drawn with braided satin ribbon at the wrist. Braided satin ribbon also featured the waistline of her frock. She wore a chapel veil, held in place in a Juliet cap and orange shoes. Her hair was styled in a shower bouquet of American beauty roses.

ATTENDANTS

Miss Mary Cheston, sister of the bridegroom, and Miss Muriel McConnell, sister of the bride, acted as bridesmaids. They wore similar frocks of pink tulle and powder blue net. Their frocks were made princess style with tiny ribbon jacks and they wore Juliet caps to match their frocks. They carried colonial bouquets of pastel sweet peas.

Mr. William Cheston, purveyor of the bridegroom, acted as best man. Usher were Mr. Jack Munro, Mr. Glynn Cheston and Mr. Kenneth Boles. Later a reception to 160 guests was arranged at the Masonic temple and to receive in the bridal party Mrs. Munro, mother of the bride, who was smartly gowned in a jacket dress of mauve sheer with matching accessories. She wore a corsage of tallman roses.

Mrs. Cheston, mother of the bridegroom, chose a becoming frock in navy blue with jacket. Her hat was powder blue and she wore pink carnations in her corsage.

BRIDES TABLE

Decorated in palest pink and yellow, the bride's table was graced with a tiered wedding cake, embroidered in white tulle with pink and yellow flowers. Snadragons in pink and yellow were used on the table and the lamps were in pink. Mr. William Cheston proposed a toast to the bride and toast to the bride and bridegroom was proposed by Rev. Mr. Naumbly.

Only 24 of the 310 whistles taken off the Canadian Pacific mail by British Columbia whalers in 1938 were female.

Dogs are able to differentiate between a metronome beating 100 times a minute and one that is beating 94 times a minute.

LATIN-AMERICA INFLUENCE SEEN IN FALL HATS

Lilly Dache, right, above, noted modiste, found inspiration for her collection of fall hats in Latin-America. The model, left, wears a Dache hat of green velvet, reminiscent of Peruvian peasant head-dresses. Madame Dache's blue and white polka dot hat is shaped like an inverted bowl.

the social round in Edmonton . . .

MRS. C. C. TATHAM, now of Kiers, Ontario, but who formerly resided in Edmonton, is visiting in the city for some time, guest at the home of Mr. and Mrs. Eric O. Taylor, 9919 114 street.

Mr. and Mrs. R. Sweeney and family have returned to their home in the city after a holiday to Ma-Me-O Beach, Niagara Lake.

Mr. and Mrs. A. S. Wolfe and family have returned from a holiday trip by motor to Jasper and Banff.

Mr. and Mrs. James Walker are holidaying for a time at Jasper and Banff.

Mr. and Mrs. James H. Taylor and Dr. and Mrs. Walter Scott have been visiting at Jasper, guests at the Lodge, are expected to return to the city at the weekend.

Mr. and Mrs. E. G. A. Smart have returned to the city after holidaying at Gull Lake during the past six weeks.

Mrs. Keith Bucknall of Edmonton, and her guest, Mrs. Patricia Leach of Vancouver, are in the city after a motor trip to Jasper and Banff. They visited Mrs. Malcolm Tweedie at the Tweedie ranch at Cochrane before returning to Edmonton.

Mrs. Irene Dushorne has returned to her home in Medicine Hat after a holiday spent in Edmonton and Calgary.

Members of the Hesters House executive are making arrangements for an informal dancing party to be held at the "Rendezvous" on Saturday evening, when their guests will be members of the Canadian forces stationed in Edmonton.

EXCHANGE LUNCHEON

An exchange luncheon and golfing party will be held at the Edmonton Golf and Country Club on Tuesday afternoon when club members will entertain members of the Mount Golf and Country Club. A. J. R. Benne is in charge of arrangements for the affair.

Lady Alice Scott Chapter Members Hold Meeting

Plans for the activities during the coming season were under discussion at a recent meeting of the Lady Alice Scott Chapter, Imperial Order Daughters of the Empire held at the Madrigal hotel.

It was reported that health pamphlets had been sent to the members of the chapter for consideration to aid in the work of the health department early next week.

Among those present at the meeting were Mrs. H. G. Mac, Mrs. A. B. Smith, and the Misses Jean Piper, Greenhouse, Blake, Mrs. Smith, Audrey Blain, Virginia Blain, Cameron, Margaret, Miss Stacey, Bryant, Alice, Nicholson, Betty, Brown, L. Clark and Betty Eubank.

Edmonton Girl Is Guest Soloist At Southern Reception

Miss Evelyn Wetmore of 11750 123 street who recently returned from a holiday trip to the southern United States, was a guest soloist at a private reception in Los Angeles, California, during her visit there.

During her recent stay she was accompanied by Dr. Raymond, owner of the Unitarian church at Los Angeles, and who has been a guest soloist at the organ of the Unitarian Temple in Salt Lake City on a number of occasions. Dr. Raymond, who acted as accompanist for the late Mrs. Ernestine Schumann Heink on a number of occasions, spoke in 1939 of Mrs. Wetmore's singing show, which he said, showed great promise.

Mrs. Wetmore is a member of First Baptist church in Edmonton.

Mr. and Mrs. Norman C. Johnson and their little daughter, Jo Ann Johnson left on Monday to return to their home in Vancouver. They have been visiting with Mr. Johnson's mother, Mrs. J. P. Johnson, and with Mr. Johnson's parents, Mr. and Mrs. Richard Bailey, during a holiday in Edmonton.

Mr. and Mrs. Walter Wilson and family are holidaying in the mountains, planning to visit in Banff, Jasper and other mountain centres.

Mrs. W. R. (Wes) May is at present visiting at Aspen Beach, Gull Lake, and will return to the city early in September.

Mr. and Mrs. William B. Watson of Toronto, formerly of Edmonton, are spending the summer months at Muskoka, Ontario.

Mrs. E. W. Newlands is in charge of arrangements for the paper chase to be held by members of the Edmonton Saddle Club on Sunday of this week.

Mr. and Mrs. A. R. Rink have as their guest for the fortnight their son, Mr. Charles Walter Rink of Spang Lake in Northern Alberta.

Honoring a bride-elect of this month, Miss Aileen Greenlee, Mrs. Margaret MacCallum arranged an attractive luncheon at a number of restaurants. Mrs. D. Greenlee, Mrs. Wayne Greenlee, Dr. Dorothy Buss, Miss Oliver Johnson, Miss Alice Hill, Miss Marion Hodgins, Mrs. Foster, Mrs. Anna Jackson, Miss Helen Ramsey and Miss J. McCallum.

Mrs. D. D. MacCallum of Regina, who has been visiting in Edmonton, is leaving for Calgary on Thursday, to spend a few days there before returning to her home.

Mr. and Mrs. L. Perry and their daughter, Miss Dorothy Perry, who are leaving the Bremner district shortly to reside in Jasperburg have been honored at a number of attractive affairs recently. Mr. and Mrs. Frank Latan, entertained in the city for a number of days, Mr. and Mrs. Perry, entertained in the city for a number of days, Mr. and Mrs. Perry, entertained in the city for a number of days.

C.W.P.C. National Body Plans Assist In Evacuation Scheme

The Canadian Women's Peace Club is a national organization which has offered to assist in arrangements whereby children of evacuees or women in Great Britain may be placed in homes of the club in family homes of evacuee people in Canada, for the duration of the war.

C.W.P.C. will receive and forward to England information of homes available, while the Society of Women Journalists, overseas, will obtain names and other particulars of those willing to send children here.

Those wishing to open their homes to British child guests will note that the C.W.P.C. scheme is a group of the war outlined by Government authorities.

Any Edmonton newspaper man or woman who newspaper family and friends of giving free home care and maintenance for the duration of the war in a child of children of evacuee people in England are asked to get in touch with Mrs. Ernest A. Brown, 10415 113 street, or with Mrs. Joyce Potter, Ravina, across from the C.W.P.C. national vice-president for Alberta.

There is an area in southwest Kentucky that cannot be reached from the rest of the state without passing through either Mammouth or Tennessee.

Royal Bowling Club Members Entertain

Over 100 guests spent a happy time over the tea-cups on Thursday afternoon when they were guests of the Royal Ladies Lawn Bowling Club at their annual tea party on the Government grounds, Mrs. Duncan Forbes received during the afternoon.

Flags and bunting were used in decoration for the occasion, while the tea table was draped in purple and gold, club colors. Presiding over the tea cups were Mrs. John Burin, association president, and Mrs. Alex Bonneau, a past president of the Royal club.

Mrs. John S. Smith was in charge of arrangements for the tea, assisted by executive members of the club. An interesting feature of the afternoon was a competition for the James Macdonald prize, which John Burin, association president, and Mrs. Alex Bonneau, a past president of the Royal club, won the cup.

Summer Flowers Form Setting For Wedding

ATTRACTIVELY decorated with gladioli, snapdragons and sweet peas in pastel tones, the Garneau home was the scene of a quiet wedding on Thursday, at the afternoon hour of eight o'clock.

Mrs. H. K. Groff and her daughter, Miss Evelyn, and Miss Miriam Groff, have returned to the city after spending a week at Jasper Park Lodge, Jasper.

Mrs. H. K. Groff and her daughter, Miss Miriam, are at home again after holidaying for the past month in eastern Canada.

Mrs. M. M. Groff, head matron at Sirathona Lodge, Shawanigan Lake, Vancouver Island who visited in the city just recently was honored at a number of attractive affairs during her visit. In compliment to her visit, Mrs. E. D. C. Thompson entertained at her home on Thursday.

Bly-Cryderman Nuptials Held In Ontario

CLAIMING interest among friends in Edmonton where the bride's parents reside and where the bride formerly made her home is the pretty wedding solemnized in Belleville, Ont., in early August when Marian Ruth Cryderman, R.N., daughter of Mr. and Mrs. R. R. Cryderman of this city became the bride of Gunner James Alfred Bly of 3234 Battery R.C.A. son of Mr. and Mrs. John Bly of Belleville.

The ceremony was performed in St. Andrew's Presbyterian church, officiated by Rev. W. J. Walker.

For her wedding the bride chose a charming frock in Queen's blue with beige colored accessories. Her flowers, worn in corsage, were American Beauty roses.

Sister of the bridegroom, Mrs. Ernest Mott attended the bride, wearing a blue and white becoming frock in Robin's egg blue with accessories to tone her corsage was of pink roses.

Mr. Ernest Mott supported the bridegroom as best man.

Reception was arranged later at the home of the bridegroom's parents and to receive in the bridal party Mrs. Bly, mother of the bridegroom, chose a smart gown in orchid tones with accessories to match and corsage of white and mauve sweet peas.

A beautiful chest of silver was presented to Gunner and Mrs. Bly during the reception.

Out-of-town guests at the wedding were Mr. G. H. Chaffin, M.P., and Mrs. Chaffin, and Mrs. P. A. Leach, of Nanaimo, sister of the bride.

CITY WOMAN HAS FINE RECORD OF SWEATERS & KNIT

"Doing her bit" and contributing her share of work and effort to aid Canada at war, Mrs. C. Allen, Martlake block, Edmonton, has achieved an enviable record in the number of sweaters for soldiers in the Canadian army she has knit since May. Bringing her total to 25 knit since early spring, Mrs. Allen's fingers have been busy all summer and has given each sweater as it was completed to the front. The Chapter members take this opportunity of saying "Thank You" to Mrs. Allen.

Queen Elizabeth Says She Could Make Good In Engineering Work

LONDON, Aug. 16.—The Queen thinks she could make good in engineering work. Her Majesty told Caroline Hallett, president of the Women's Engineering Society, during a visit Thursday in the multi-ton making training school. "I think the work is so interesting that I should like to take a course of training here myself," the Queen said. "And what is more I really believe I could manage the work."

During were Mr. G. H. Chaffin, M.P., and Mrs. Chaffin, and Mrs. P. A. Leach, of Nanaimo, sister of the bride.

Dorothy Dix Says:

A newspaper has enjoyed the silly season by asking its men readers what sort of woman they like, and a surprisingly large number have expressed a preference for silent women. I hope the sophisticated maiden, seeking to make herself attractive to the opposite sex, will take this reply seriously.

There isn't a vestige of truth in it, and any girl who thinks she can make a hit with men by emulating the close-mouthed clam will find herself worse off than a clam, for she will be stranded and no man will take the trouble to dig her out of her shell.

Of course, there is a traditional theory among men that women talk too much, and that they object to women's gabble that the world, and especially the married state, would be a lot pleasanter and more peaceful if all females were born without tongues. But this is merely theory, with no facts to bolster it up. In reality, men don't like silent women and they avoid them as if they had the plague.

You never see a girl who is a Dumb Dora who is popular with the boys and all dated up weeks ahead. She may be as pretty as a picture, a good dancer, a swell dresser and have a nifty reader of her own, a mother who is a good booster and possess all the appearances that should make her a social success, but if she has no conversational life she is sunk.

No youth will drag about a girl who just sits up like a knot on a log and who more fully gives evidence of being alive by occasionally uttering a monosyllable or two, and then passing back into the silence. It's not any young man's idea of spending a pleasant evening to work like a coal heaver doing a monologue for the benefit of a young woman who doesn't even feed him a few crumbs.

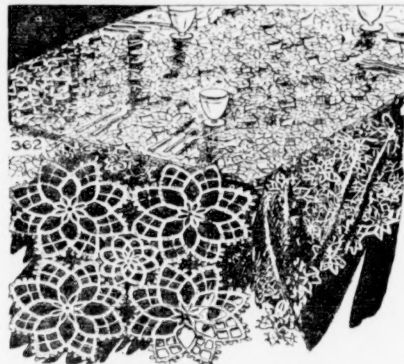

In other countries men take the lead in conversation and entertain the women, but the western man is spoiled and he expects his women to do the talking and to amuse and divert him.

And the glamorous boys don't mob the girls with never a word to say for themselves and vie with each other in giving the silent ones a good time. They pass them up and leave them to self-communion at home, while they rush the chatterboxes who can twattle along by the yard about nothing.

No, do men really esteem silence as such a virtue in their wives as they profess to do. Naturally, if one is unlucky

DESIGN No. 302—LAZY DAISY MEDALLIONS
These crocheted medallions may be used to create a beautiful tablecloth or bedspread.

Pattern No. 302 contains list of materials needed, illustration of stitches and complete instructions. To order this pattern, write your name and address on a piece of paper and send with 20 cents in coin to Needlework Department, The Edmonton Bulletin, Edmonton, Alberta.

Please allow a week or ten days for delivery.

enough to be married to a nagger, he wishes she had been born dumb.

But in all good truth, nobody can imagine a happy, cheerful home presided over by a grim, silent woman who never asked her husband a hundred silly, loving questions when he came home at an evening, who never teased over him, who never talked baby talk to him, who never had any news to tell.

The trouble with women's talking, so far as men are concerned, is not that they talk too much, but that they talk about the wrong things. They talk too much about their ailments and their grievances, and the things they are doing to do without, and they tell their husbands too many home truths, and that is why so many husbands feel that they would like to be married to dumb wives.

But if wives would only change their theme song and have on less hard-boiled and big and strong and wonderful their husbands are, and if they would show their appreciation of all that their husbands do for them, there would be no more call for silence. Their husbands would then speak on and feel that they could listen forever.

Minute Make-Ups

2889
SIZES 12-20

Take a few minutes in broad daylight with a mirror and your powder to ask yourself, "Does it match?" So often your face becomes more tanned than you realize and your powder which a week ago matched perfectly now stands out like a bit of flour on your face. Remember that powder which does not match your complexion is not kind to your features.

What causes them—How to get rid of them

Corns are caused by pressure and friction—often from shoes that are too tight. But now it's easy to remove them with the tried Blue-Jay way!

The Blue-Jay pad relieves pain quickly by removing pressure. Then, special Blue-Jay medication acts on the corn so that in a few days it can be lifted out. And simply by avoiding the pressure and friction that caused your corn you can prevent their return. Get Blue-Jay today. Only 25¢ for a package.

BAUER'S BLUE-JAY CORN PLASTER

Pickles Will Add To Cold Cuts or Salmon and Tuna

By MRS. GAYNOR MADDOX

Pork, ham, beef, cold cuts, salmon, and tuna fish taste even better with a spicy, zesty pickle. The recipe below is economical and easy to make.

FRESH GREEN TOMATO PICKLES

1 1/2 quarts (12 pounds) prepared green tomatoes, 5 cups salt, 1 cup sugar, 4 cups cider vinegar, 3 1/2 cups (15 pounds) light brown sugar, firmly packed, 1 1/2 teaspoons ground cloves, 1 1/2 teaspoons ground ginger, 1 1/2 teaspoons ground nutmeg, 1 1/2 teaspoons ground mustard, 1 1/2 teaspoons black pepper, 1 1/2 cups mustard seeds.

Wash about 8 pounds firm, green tomatoes of uniform size. Remove stem ends and cut in fourth slices. Wash and peel about 20 small onions. Cut into 1/4-inch slices. Arrange tomatoes and onions in layers in large bowl or crock, sprinkling with salt.

Cover and let stand overnight. Drain, rinse and place in large bowl. Add sugar, vinegar, spices and mustard seeds. Add to vegetables. Bring slowly to a boil, stirring constantly. Pack into clean, hot, sterilized jars. Fill each jar to within 1/2 inch of top with boiling syrup. Seal.

SALAMAGUNDI RELISH

Wash and peel about 8 young, firm, medium-sized cucumbers. Wash and peel about 3 Bermuda onions. Wash about 8 medium-sized green peppers, cut in halves, remove stem ends and seeds.

Wash and remove stem ends from about 1 1/2 pounds firm, green tomatoes. Drain about 8 large potatoes and remove any black portions. Put each through food chopper, using coarse knife. Wash or measure into large bowl or crock. Add 1 1/2 cups salt and mix well. Cover and let stand over night. Drain and press out all the liquid. Add 2 1/2 cups vinegar, 1 pound sugar, 3 tablespoons mustard seed, 1 teaspoon pepper, crushed, 1/2 cup bottled horseradish and stir well. Sugar is dissolved. Add salt, vinegar, horseradish and mix well. Let stand 30 minutes. Seal in clean, hot, sterilized jars.

France Is Seeking British Permission Import Foodstuffs

CLERMONT-FERRAND, France, Aug. 16.—Foreign Minister Paul Baudouin said yesterday that he was doing his utmost to obtain a British agreement to permit importation of food to France through the blockade and that the British demand is pending. Baudouin said that the British demand was that France should agree that food and other supplies sent from abroad into the unoccupied part of France would not be removed.

Accordingly, he said, he had made a new proposal to London.

He said that the British demand was that France should agree that food and other supplies sent from abroad into the unoccupied part of France would not be removed.

He said that the British demand was that France should agree that food and other supplies sent from abroad into the unoccupied part of France would not be removed.

MILITIA UNIT TO BE FORMED AT UNIVERSITY

Lieutenant-Colonel Issues
Statement On Training
For Students

According to a statement released Friday by Lt.-Col. P. S. Warren, officer commanding the University of Alberta Militia Unit, the C.O.T.C. arrangements are now being completed for the formation of a Reserve Militia Unit at the university here to provide training for all male university students. The C.O.T.C. unit will be limited to those who show themselves fitted to assume leadership.

The statement released Friday by the C.O.T.C. officials was as follows: "By arrangement between the universities and the department of national defence, all male university students other than those physically unable will receive military training during the coming term and in camp after the university term is concluded. This military training in university during the term and subsequently in camp will, it is assumed, be effective in meeting the requirements of the National Resources Mobilization Act."

"Any student or prospective student who intends to come to university in September and receives word that he is drafted under the regulations of the National Resources Mobilization Act should apply for a postponement of such training until he enrolls in the Reserve Militia Unit to be established in the university."

"At the present time the application of the mobilization in respect to university students is not entirely clear but it is believed that the university there is acting in conformity with requirements of the Act in giving this advice to students."

Preliminary organization of the Reserve Militia Unit is now underway. A regimental school, composed of C.O.T.C. members, is scheduled to start next week to prepare an adequate staff of instructors for the new unit.

A. Mercer giving to a C.O.T.C. applicant; Capt. Fred Crumblin, of Calgary, in the city on official military business.

The Inquiring Reporter

THE QUESTION
It must be said to be an inventive—developing new processes in synthetic food construction, making mechanical contrivances, etc.

As thought the B.R.R. today as he is not going at the latest fall catalogue. And so the question: If you felt in a particularly inventive mood, what invention would you perfect?

THE ANSWERS
TOM McCREATH, bookkeeper: Well, let me see now, I've got a little something here that should be patented pretty soon and that is, a last-number-computer-leader-rewarder. It's about time something was done to stop people leaving groceries and shoes just when the final number is being played.

NORMA REYNOLDS, in-the-city vacationist: What this country needs is a compact self-operating beauty parlor unit that can be installed in every home in the land. Then the men couldn't complain about "oh, she's been down at the beauty shop for the last seven hours or so."

J. ERNEST NIX, office clerk: The best process yet would be to have a robot who didn't ask questions. Enough to know... but not...

FRANK MATTHEW, high school student: Something to keep the future quiet, such as a perpetual sleeping potion, would just about hit the spot right now.

R. P. CABLE, radio repairman: I'd either perfect some device to cut out "intermittent" radios or invent some new type of mechanism that wouldn't be the least bit worried by the hottest and loudest swing band in the land.

Aircraft Meet
Model aircraft fans will meet Tuesday at 8:30 p.m. when the Model Aircraft League of Edmonton gather at the Memorial Hall. Prizes won at the recent contests will be awarded and a plan to increase club membership will be considered.

THE HUMAN EYE
By Jackson Bros., Optometrist

Most eye defects result not from trouble with the retina or optic nerve of the eye, but from either part of the eye which are supposed to lead the light properly to the retina. Because this part of the eye is essentially mechanical, most of the common defects can be mechanically corrected just by adding, helping lenses in the form of eyeglasses. And what a blessing this is.

Between the marvelous gift of nature and the remarkable accuracy that science has made in the field of Optics, it is almost possible for almost everyone to enjoy perfect vision either through naturally perfect eyes, or through eyes whose defects have been corrected.

Visit our Eyeglass Clinic which is open to you every day except Sunday and holidays, and have our registered Optometrist who holds his diploma from the University of Medicine and Surgery, examinations give your eyes a thorough eye-sight examination.

If you require glasses, you may have the use of them while waiting for them, by having our new specially fitted temporary plan in weekly or monthly payments.

If you are in doubt, call, write or Phone 2147.

CITY LINEMAN ELECTROCUTED JURY DECIDES

Accidental Death Verdict
Returned In Death Of
Carl D. Pullman

Verdict of accidental death by electrocution in the course of carrying out his duties, was returned by a coroner's jury Thursday that probed the death of Carl D. Pullman, city electric light department employee.

Pullman was almost instantly killed while effecting repairs to power lines damaged by wind at 112 street and 99 avenue at 9:20 p.m. Tuesday.

Chief Coroner Dr. A. E. Braithwaite presided at the inquest while Det. Williams, McDonald was in charge of the examination of witnesses.

CONTACTS WIKES
Pullman had caused the fatal current to pass through his body by contacting a high tension wire with his right shoulder and the low tension line with his left hip, according to the testimony of Harold Haslund. Haslund was one of a crew of five sent to make repairs under the direction of Pullman on the night of the fatality.

Witness told the story of the foreman's death in the jury room. He said Pullman had discussed the question of how to make the repair with the crew when they were at the airport where some 300 men will be employed in the work.

Safety rules call for two men ascending a pole when there is work of the kind in question. Pullman had announced he would go up first while Haslund was to follow.

Pullman had just swung under the telephone wires, a few feet from the top of the pole, and Pullman had started to climb the pole when the accident occurred.

He said a big flash and Pullman fell down. "I think he must have slipped," Haslund told the jury.

Pullman had not been wearing his safety belt in place before he suffered the shock. Witness felt certain that the mishap was entirely accidental as Pullman was a thoroughly experienced man.

TRUSTWORTHY EMPLOYEE
W. Allan, foreman, who sent Pullman and his crew at 112 street, also declared that the dead man was a highly trustworthy employee.

"He was one of the best linemen we could possibly hire. He knew the city and knew his work and had been on the job for 20 years."

W. Evans, W. L. Summers, A. W. Parks and Bernard Dunning, other members of the crew, corroborated the evidence of Haslund and could add nothing further to the description given by the latter of what happened to Pullman.

Coroner Dr. Braithwaite explained that he had talked with Doctors J. H. Conroy and H. H. Hepburn, who attended Pullman, shortly after his fall.

Dr. Braithwaite had also examined the body of Pullman about 15 minutes after he had been pronounced dead. There were burns on the right shoulder and arm and on the left hip. The coroner had not ordered a post mortem as the result of the obvious indications of death from electrocution, he stated.

The following were members of the jury: Harry Milner, J. W. Parks, W. K. McDonald, W. Munro, T. W. Dean and John Hay.

Inquest was held at Connelly-McKinley Ltd., funeral directors.

Auto Abandoned
"Thou who stole the automobile of Vic Jordan from his home garage at 11437 97 street on Tuesday last, abandoning the car at the corner of the Pavey Candy Co., 105A avenue and 84 street after stealing a number of articles in the store. A black leather handbag, worth \$9 a grey jacket, gold valued at \$3 and a green felt hat were taken along with 30 vulcanizing patches.

Recruits Rush To Enter City Units: Volunteering Ends

All non-permanent active militia units had a flood of recruits pour into their ranks Thursday night, scheduled as the last night for voluntary enlistment.

As recruits poured in at the orderly room of the 81st Field Battalion, Royal Canadian Artillery, this unit went over strength in enlistment calls for its ranks. Maj. J. Verzeke is officer commanding.

The 2nd corps troops, Corp Pease, Edmonton, Maj. W. A. de Graeve, D.S.O., took more than 100 men Thursday night, swelling its ranks to 400.

MILICIA CORPS
A large number of recruits were enlisted by No. 4 Casualty Clearing Station R.C.A.M.C., commanded by Lt.-Col. J. R. T. Ashburn.

As reports and returns are completed and medical examinations made, it is likely that transfers will be made from units where strength is low to those which have not quite reached their full establishment.

The 2nd Battalion, Edmonton Regiment, N.P.A.M., held its N.C.O. school Thursday night and the first examinations will be held Sunday and Tuesday at the Prince of Wales Armoury. The regular battalion parade is to be held Friday night.

ACTIVE SERVICE
The 1st Battalion, Edmonton Fusiliers, C.A.S.F., is recruiting quickly for active service. Some 200 men are now being trained for regular army and C.A.S.F. companies, which are being trained from the Edmonton Fusiliers, N.P.A.M., the 2nd Battalion, Edmonton Regiment and the 19th Alberta Dragoons. Full details of 345 is expected to be received in the next few days. These companies are being recruited by Calgary militia units.

AIRCRAFT REPAIRS
IMPORTANT PLANT
FOR AIR PROGRAM

Aircraft Repairs Limited, an Edmonton company whose name signifies only half its activities, is preparing to undertake one of the most important functions in connection with the British Commonwealth Air Training Plan and the Royal Canadian Air Force activities.

Headed by W. Leigh Brimble and with a background of seven years constantly engaged in this work, Aircraft Repairs Limited, the shop fully approved by government inspectors for the overhaul of aircraft, engines, propellers, accessories, instruments and radio.

The plant is equipped for testing all types of airplane engines up to 2,000 h.p. and employs 75 skilled mechanics and engineers. The company is expanding rapidly and shortly will engage another 50, going to a total strength of 125 and will be in full operation. It will be housed in a huge hangar to be built this fall at the Dominion government airport.

The plant at present is manufacturing some equipment for the department of munitions and supply and is overhauling aircraft for the Royal Canadian Air Force.

Workmen Remove Link With Early Days Here: Wood Block Paving Goes

One of the ties with Edmonton's early history passed from existence this week as workmen removed the last section of wood block paving in the city. The wood block paving was laid down about 1906 and workmen first began to remove it in 1928. The final stretch was removed this week as workmen completed paving of 97 street between Jasper avenue and 104 avenue.

The old wood blocks served the city long and well. When first used they were the modern paving method and allowed transportation to carry on under all weather conditions. However, with the passing of time, they slowly moved out of place and the surface of the street was rough and broken.

The first of the wood block paving removed was on 101 street and 100 street, about 1928.

A large number of sidewalks throughout the city have been having a good deal of trouble in the past few years, and the city engineers' department is Friday, and should be completed shortly.

A large crew is also at work at the city gravel pit. A double shift is working steadily supplying gravel for the city's street department and the old roadways at the city airport, which are being rounded off with gravel.

A. L. Cunningham, Vancouver, western manager of the Canadian Tire Co., Ltd., was a business visitor in Edmonton Friday. He was registered at the Macdonald.

Husband Seeks Refuge For Family In Canada

An appeal is made by J. Gardner, St. Leonards, Sussex, Eng., who is seeking a home for his wife and daughter in Canada for the duration of the war.

In a letter to The Edmonton Bulletin, Mr. Gardner writes that if he might be an Edmonton family who might be able to offer a job or home for his wife and daughter, he would be glad to have them and address to proceed to in Canada.

He states that Mrs. Gardner, who he married in Montreal, has had experience as a governess in that city, and that their daughter, aged four years, is "beautiful little girl." Mrs. Gardner is now 28 years of age.

If arrangements can be made to find employment for Mrs. Gardner in Edmonton or duties, the family will be able to get to Canada before the British scheme, as Mr. Gardner has saved sufficient to pay the half-year passage which the scheme provides.

CONFIDENCE IN WAR OUTCOME BOOSTS TRADE

G. Bannerman Of Hudson
Motors Of Canada Ltd.
Visits City

Business in Canada is responding to a new confidence in the outcome of the war, it was stated by Glen Bannerman, Toronto, manager of the advertising and merchandising division of Hudson Motors of Canada Limited, Friday.

Mr. Bannerman was in Edmonton Friday to conduct a preview showing of 1941 models of Hudson cars at the Hotel Macdonald. He was accompanied by P. J. Healy, manager of Hudson Motors Ltd., a preview showing of 1941 Hudson cars is being given at the Hotel Macdonald and dealers by Mr. Bannerman.

Mr. Bannerman said that the confidence in the outcome of the war, which has become more confident of the outcome of the war, has resulted in more confidence in the outcome of the war.

Mr. Bannerman said that the confidence in the outcome of the war, which has become more confident of the outcome of the war, has resulted in more confidence in the outcome of the war.

Issues
Three-Month Financial
Report

Operating results of the Alberta government for the three-month period ending June 30, 1940, show an overall cash surplus of \$1,592,579, according to a statement issued Friday by Hon. Solon Low, provincial treasurer. This is an increase of \$1,575,974.33 over the corresponding period of 1939 when the overall cash surplus was \$316,607.51.

Cash payments for the 1940 period show an increase of \$200,000 over the 1939 period, but the increase in the 1940 period was offset by a decrease in the 1939 period, which was \$200,000. The overall cash surplus for the 1940 period was \$1,592,579.33, compared with \$316,607.51 in 1939.

These figures, the report states, are reported on a strictly cash basis, and do not include the value of assets in cash within the period. Payments include accounts payable at the commencement of the period.

PODERSKY'S WIN FROM MACCABEES BY 6-5 SCORE

Podersky's tied up the junior men's softball playoffs defeating the Maccabees 6-5 Thursday night at Kingsway park. Each team now has one win in the best-of-five series.

Malone had five strikeouts as against Feldman's two. Brown, second baseman for the Maccabees, picked for three hits in four times at bat, one of them being a double and Burtone hit two for two. Brown played an important part in the win.

Podersky's went into the lead in the third inning with a three-run homer. He walked and Dunlop fanned out a single. Harris sacrificed and then Colter got a hit to center to score Burt. Burt's sacrifice hit ran number two and Colter made the grade on two batted balls.

In the fourth Superstein was safe on an error and was forced when Fefferman got a life on a fielder's choice. Brown's double sent the run across.

In the fifth inning Harris got to first on an error and stole second. Colter, who was leading off, also reached the initial station on an error. Sacrifices by Saxon and Chiswick hitched another counter. The Maccabees did business in a big way in the seventh getting four runs. Shuler got started on a short error but then Roy Chubnick closed a homer tying up the score.

The Furthurs boys kicked off first in the eighth. Lovingson got off on an error, went to second on a wild pitch and completed a grand slam when Chubnick's grounder got away from Shuler.

Two Soldiers Are Badly Injured In Calgary Accident

CALGARY, Aug. 16.—Two soldiers were badly injured at 11 p.m. last night when their light coupe collided almost head-on with a street car at the top of a subway here.

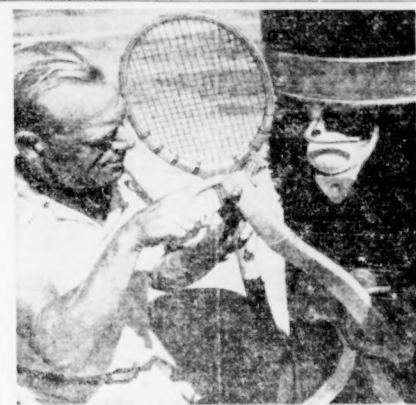

One was identified by his regimental papers as Pte. Oscar Sundby, Calgary Highlanders, Mewana Park, while the other, a believed to be named Taylor, both suffered serious cuts about the face and hands and other injuries.

Both were rushed to the Col. Belcher hospital and, early Friday, military physicians were working on them. Sundby's condition was fairly good at midnight but the other man was in a very serious state from loss of blood. He may have a fractured skull.

Several Killed As Bomber Hits Cable

LONDON, Aug. 16.—Several persons were killed last night when a Lockheed-Hudson bomber flying over a suburb near London with a balloon cable and crashed on a house.

Dandelion tap roots sometimes extend three feet into the soil.

Robot Aids Tennis Dubs

The robot racket, claimed to be a boon to tennis players, both tournament players and just plain dubs, in that it will feed a constant succession of balls to any desired part of the court for practice purposes. As the balls drop from the container at the top of the machine they can be served or driven from any angle so that the player can perfect weaknesses in his play by constant practice. William F. White, collector at the Merton Cricket Club, Philadelphia, is looking over the latest robot racket.

Relief Pitcher Stops Yankees on First Start

NEW YORK, Aug. 16.—Joe Heving, a relief pitcher making his first start of the year, was a real relief to the sagging Boston Red Sox Thursday. Handcuffing the world champion New York Yankees with three hits, he broke a four-game Sox losing streak and a six-game Yankee winning streak 11-1.

INDIANS STILL WIN

CHICAGO, Aug. 16.—The stumbling Chicago Cubs today lost to the St. Louis Cardinals 1-0 in the eighth inning of the season's 14th game.

The second game of the season was played at the Municipal Stadium in Chicago. The Cubs, who are 1-13, lost to the Cardinals, who are 1-14, in the eighth inning.

Chicago's only hit was a single by Ed Stanky in the eighth inning. The Cardinals' only hit was a single by Ed Stanky in the eighth inning.

Chicago's only hit was a single by Ed Stanky in the eighth inning. The Cardinals' only hit was a single by Ed Stanky in the eighth inning.

Favorites Win First Three to Cut Double

WHEN Dr. Pook ran true to form and captured the opening race on Thursday at the Exhibition grounds it looked as if form followers might be due for a break. Then the hottest favorite of the day, Royal Carol, at less than even money, romped home with number two—that was a help. Proud Santa at even money followed with a neck win in the second half of the daily double to make it three straight and send form hopes sky high—but from then on the picture was different.

In the fourth Drake's Drum, a 6 to 1 shot, crossed up the boys and the favorite, Buen Tono, was set back to the show berth. Lilly Friary, whom the public had evidently soured on as a result of Tuesday's bad experience, caused more gloom by flying home first with Kady Kate, also overbooked, in the place position.

Golden Sable and Major S. finished off the picture in the last two events. The favorite ran third in the first race just going 3.5 seconds off the track record while Jockey Bead brought Golden Sable under the wire 2.5 seconds above the mark for the 4 1/2 furlongs in the sixth gallop.

THIRTEEN FINISH

Thursday's race was all that could be desired. Proud Santa paid on nose bets all right, but it was only by a neck with Queen Jean just a head in front of Authority for Bead and place. Wackadack was in there too coming fast on the outside for a great finish.

The next in the last event on the card, a 4 1/2 furlong claiming, really got the crowd for the points division from the South Atlantic of Calgary, Golden Sable, was set in behind Steve Lee by Bead and place. Wackadack was in there too coming fast on the outside for a great finish.

The next in the last event on the card, a 4 1/2 furlong claiming, really got the crowd for the points division from the South Atlantic of Calgary, Golden Sable, was set in behind Steve Lee by Bead and place. Wackadack was in there too coming fast on the outside for a great finish.

Bicycle Race

The annual Alberta Beach Bicycle Race will run off on Saturday afternoon and will start from the city police station at 4:30 o'clock. It is understood that about 30 riders have entered for the race. The route to be taken will be out Jasper to 124 street, north to 100 ave. and then west out the Jasper highway.

Golden Sable and Major S. finished off the picture in the last two events. The favorite ran third in the first race just going 3.5 seconds off the track record while Jockey Bead brought Golden Sable under the wire 2.5 seconds above the mark for the 4 1/2 furlongs in the sixth gallop.
